ABOUT ME

I am a 21-year-old student at AGH University of Krakow. Both at university and outside of it, I am currently developing my skills in building REST APIs with Spring Boot (Maven) and Angular, and in programming mobile apps in Kotlin.

Available for a full-time internship from July to September 2027. EU citizen – no work permit required.

In my free time I enjoy football, going to the gym and learning Italian.

PROJECTS

B4Fit – Fitness web application

Java · Spring Boot · PostgreSQL · Angular

- Designed a PostgreSQL database and a REST API with a three-layer architecture (controller – service – repository)
- Implemented registration with email verification and a scheduled job (@Scheduled) that deletes expired tokens
- Implemented calorie and macro calculation based on product weights and recipe portions
- Built an Angular single-page application (SPA) with Angular Signals and route guards, in Polish and English, with unit tests (Vitest)
